

**'Festive Attire'** defined...  
think *FUN*, think **dancing**, think *color!*

First, relax! Remember this is a party to celebrate our kids and our schools, not a fashion show! You'll be among friends and friendly people.

If you're still staring into the abyss of your closet wondering what to wear to the **Royal Bash**, the following simple guidelines will help you gear up for the best winter party you've ever attended.

Whoa! Have you noticed the temperature in February? It's a tad chilly out there. Layers are good and wool is always fashionable. Prefer boots to dainty sling-backs? Absolutely fine – you'll want to save your arches for dancing the night away anyway.

**'Festive Attire'** is whatever makes you feel like a million bucks, not the outfit you have to constantly fuss with. YOUR definition may include a vibrantly colored dress, or a blouse or sweater with awesome black pants or jeans. For someone else, it may be their Little-Black-Dress blinged-out with sparkly jewelry. All of these are great choices.

Clearly, the above suggestions are directed to the ladies. But what defines **'Festive Attire'** for the gentlemen? Just one rule: you have permission to leave the suit at the office – it's Saturday night! How about a blazer or nice sweater? A button-down shirt paired with a tweed jacket? Ties are definitely optional, but again, it's all a question of what makes YOU feel **festive**.

This is a party, people! Don't spend too much time digging in that closet; just get ready to have some fun.

**See you at the Bash!**
